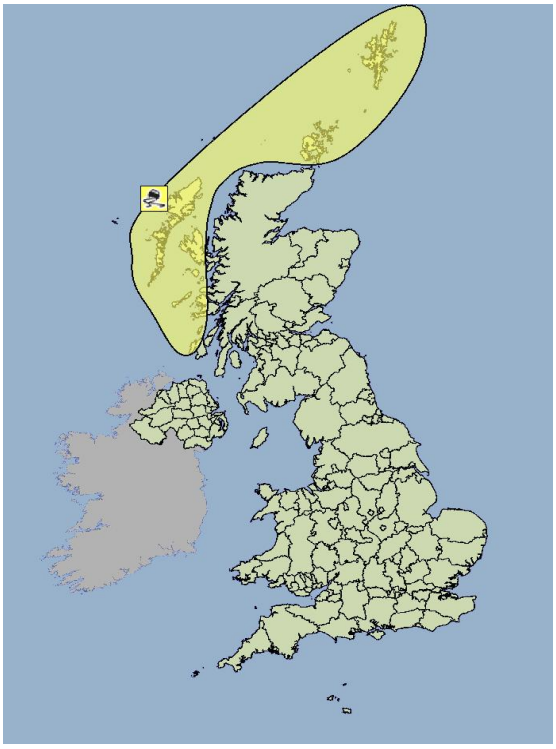
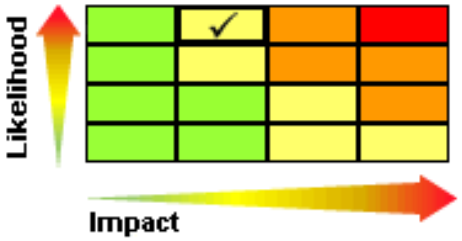
National Severe Weather Warning Service





Chief Forecasters Assessment
A ready supply of wintry showers brings an enhanced ice risk on untreated surfaces, while showers may remove treatment from some roads.

The Met Office have issued a **Yellow Warning** of **Ice**

Valid from **20:00 on Thu, 18th Jan 2018** until **10:00 on Fri, 19th Jan 2018**

Frequent showers of rain, sleet, hail (and some snow), combined with low temperatures, will bring about a continued risk of icy stretches.

Journeys may take longer, and there is an increased risk of accidents or injuries.
